PROJECTS

Netflix-Clone | [Website](#)

- Implemented state management techniques using React.js, including useState and useContext hooks, to manage dynamic data such as user authentication and video playback state.

MCQ Quiz Master | [Code](#)

- Developed a dynamic web application using Servlets and JSP for creating and taking multiple-choice quizzes efficiently.
- Enhanced user experience by enabling intuitive question addition and display functionalities.

Dynamic Database Table Manager | [Code](#)

- Created an advanced web application using Java Servlets and MySQL to manage database tables dynamically.
- Integrated functionalities including table creation, data viewing, and insertion for enhanced database management.

College Management System

- Designed and implemented a comprehensive College Management System using Java and SQL.
- Streamlined processes such as fee management, library management, and academic result tracking for efficient administration.

SKILLS

Programming Language: Java , JavaScript

Web Development: React JS ,HTML ,CSS ,Bootstrap

Tools: Visual Studio Code ,Git & GitHub, Netlify

Database Management: SQL, DBMS

Other Skills: Object-Oriented Programming (OOPs), Computer Networks, Operating Systems

TRAINING & CERTIFICATIONS

Pursuing Java Full Stack Development Course (Q Spiders).
